Door 1 — pane schedule

Eight panes on one double door. Four measure 900 × 500 mm and four measure 900 × 400 mm — all 900 mm high, so every design is portrait and the width is the only variable. Sizes here come from the client's measurement, not from a photograph, so the artwork can be cut to them; confirm each pane on site before the film is plotted.

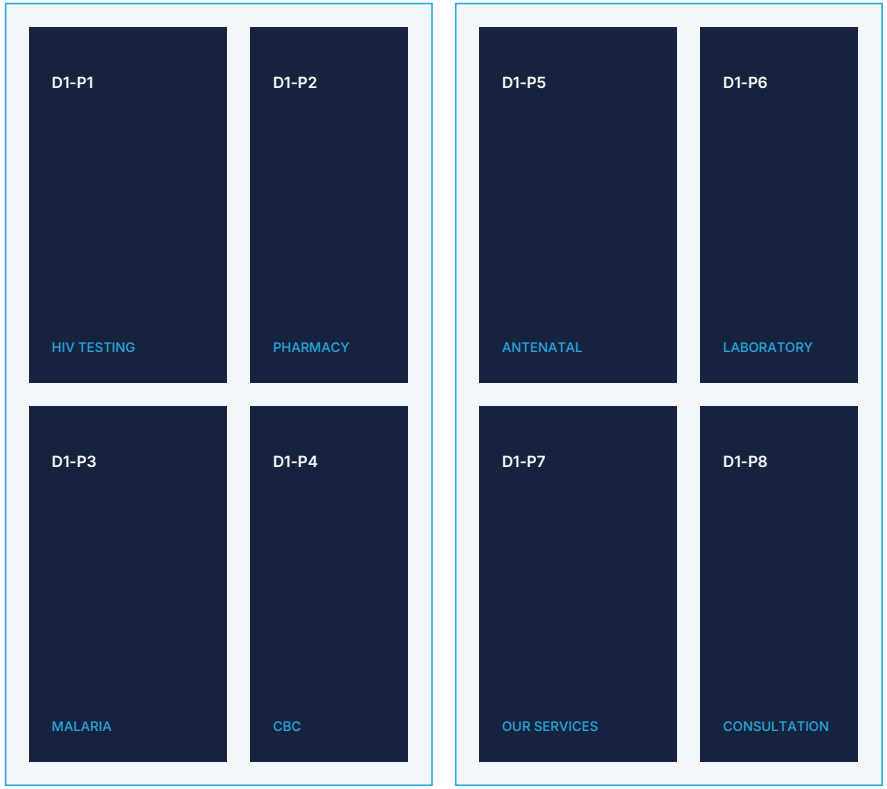
PANE	SERVICE	GLASS H × W	ASPECT	LEAF	POSITION	PHOTO	FILE
D1-P1	HIV TESTING	900 × 500	1 : 1.80	LEFT LEAF	UPPER LEFT	PH-09	D1-P1.PDF
D1-P2	PHARMACY	900 × 400	1 : 2.25	LEFT LEAF	UPPER RIGHT	PH-06	D1-P2.PDF
D1-P3	MALARIA	900 × 500	1 : 1.80	LEFT LEAF	LOWER LEFT	PH-11	D1-P3.PDF
D1-P4	CBC	900 × 400	1 : 2.25	LEFT LEAF	LOWER RIGHT	PH-10	D1-P4.PDF
D1-P5	ANTENATAL	900 × 500	1 : 1.80	RIGHT LEAF	UPPER LEFT	PH-07	D1-P5.PDF
D1-P6	LABORATORY	900 × 400	1 : 2.25	RIGHT LEAF	UPPER RIGHT	PH-05	D1-P6.PDF
D1-P7	OUR SERVICES	900 × 500	1 : 1.80	RIGHT LEAF	LOWER LEFT	GRAPHIC	D1-P7.PDF
D1-P8	CONSULTATION	900 × 400	1 : 2.25	RIGHT LEAF	LOWER RIGHT	PH-08	D1-P8.PDF

WHAT CHANGED FROM THE FIRST SET

- The earlier panes were 810 × 1120 mm, scaled from a photograph and carrying general services. These are measured — 900 mm high, 500 or 400 mm wide — and carry the services BCM actually offers: HIV testing, malaria testing, CBC, antenatal care, pharmacy, laboratory and the doctor's room. No dentistry, no physiotherapy.
- Type is set to the pane, not to taste: the service name is capped at 13.5 % of the pane width, so a 400 mm pane carries a smaller name than a 500 mm one and reads the same from the pavement.
- The white logo plate is measured from its own type and squeezed to fit the narrowest pane, so the badge and wordmark sit identically on all eight.
- The slogan moved into the plate. At 400 mm wide there is no room for it twice.

Layout as measured

Two leaves, two columns and two rows per leaf: the 500 mm column on the left of each leaf, the 400 mm column on the right. If the site is the other way round, say so — the artwork is width-agnostic, but the pane numbers would swap.



LEAF A — LEFT

LEAF B — RIGHT

WHY THE TWO WIDTHS MATTER

- Left column of each leaf: 900 × 500 — HIV testing, malaria and antenatal carry the subject at full width.
- Right column: 900 × 400 — the narrower panes take equipment and hands: pharmacy shelving, the microscope, the blood draw, the doctor's room.
- Eight panes, eight different photographs. No image repeats anywhere on the door.
- Bleed is 10 mm on every edge, so the printed piece is 920 × 520 and 920 × 420 mm.
- The directory pane needs its nine lines at 14 mm cap to stay legible on a 400 mm pane — which is why it sits in the wide column.
