Door 1 — pane schedule

Eight panes on one double door. Four measure 900 × 500 mm and four measure 900 × 400 mm — all 900 mm high, so every design is portrait and the width is the only variable. The sizes are the client's own measurement, repeated across the the doorways; confirm each pane on site before the film is plotted.

PANE	SERVICE	GLASS H × W	ASPECT	LEAF	POSITION	PHOTO	FILE
D1-P1	HIV CARE	900 × 500	1 : 1.80	LEFT LEAF	UPPER OUTER	PH-09	D1-P1.PDF
D1-P2	PHARMACY	900 × 400	1 : 2.25	LEFT LEAF	UPPER MIDDLE	PH-28	D1-P2.PDF
D1-P3	MALARIA	900 × 500	1 : 1.80	LEFT LEAF	LOWER OUTER	PH-11	D1-P3.PDF
D1-P4	CBC	900 × 400	1 : 2.25	LEFT LEAF	LOWER MIDDLE	PH-10	D1-P4.PDF
D1-P5	LABORATORY	900 × 400	1 : 2.25	RIGHT LEAF	UPPER MIDDLE	PH-05	D1-P5.PDF
D1-P6	ANTENATAL	900 × 500	1 : 1.80	RIGHT LEAF	UPPER OUTER	PH-24	D1-P6.PDF
D1-P7	OUTPATIENT	900 × 400	1 : 2.25	RIGHT LEAF	LOWER MIDDLE	PH-08	D1-P7.PDF
D1-P8	OUR SERVICES	900 × 500	1 : 1.80	RIGHT LEAF	LOWER OUTER	GRAPHIC	D1-P8.PDF

THIS DOORWAY

- The services are the clinic's own board, dental left out at their instruction: general outpatient, inpatient care, HIV care, immunisation, pharmacy, laboratory, ultrasound, antenatal & postnatal, obs & gyn, paediatrics, minor surgery, family planning, ENT, eye services, orthopaedics and travel medical examination.
- Type is set to the pane, not to taste: the service name is capped at 13.5 % of the pane width, so a 400 mm pane carries a smaller name than a 500 mm one and reads the same from the pavement.
- The white logo plate is measured from its own type and squeezed to fit the narrowest pane, so the badge and wordmark sit identically on all eight.
- The directory pane carries nine lines at 14 mm cap — still one column, still legible behind the perforation.

Layout as measured

Two leaves, two columns and two rows per leaf. The 400 mm panes are the ones in the middle of the doorway, against the meeting stile — so leaf A runs wide then narrow and leaf B runs narrow then wide, and the 500 mm panes finish at the two outer edges. Check that against the real leaves before the film is cut.

LEAF A — LEFT

LEAF B — RIGHT

WHY THE TWO WIDTHS MATTER

- Outer column, at the two edges of the doorway: 900 × 500 — HIV care, malaria, antenatal and the directory carry the subject at full width.
- Middle column, against the meeting stile: 900 × 400 — the narrower panes take equipment and hands: the tablets in hand, the blood count, the microscope, the doctor's room.
- Eight panes, seven photographs and one directory. No image repeats anywhere on the door, and no image is shared with doors 2 or 3.
- Bleed is 10 mm on every edge, so the printed piece is 920 × 520 and 920 × 420 mm.
- The directory pane needs its nine lines at 14 mm cap to stay legible on a 400 mm pane — which is why it sits in the wide column.
