Panel schedule

Eight panes across four 900 mm door leaves, rebuilt from the client's own shopfront photograph. Each leaf carries an upper and a lower glass pane, so each pane is its own print piece. Pane proportions were measured off that photograph and scaled to a standard 900 mm leaf — confirm every figure on site before release.

PANEL	SERVICE	W × H (MM)	ASPECT	PHOTOGRAPH	COVERAGE	PLACEMENT	STATUS
BM-01	DENTAL	810 × 1120	1 : 1.38	PH-02	64%	LEFT INNER LEAF · UPPER	PROVISIONAL
BM-02	PAEDIATRICS	810 × 1120	1 : 1.38	PH-03	64%	RIGHT INNER LEAF · UPPER	PROVISIONAL
BM-03	LABORATORY	810 × 1120	1 : 1.38	PH-05	64%	RIGHT OUTER LEAF · UPPER	PROVISIONAL
BM-04	PHYSIOTHERAPY	810 × 1180	1 : 1.46	PH-04	66%	LEFT INNER LEAF · LOWER	PROVISIONAL
BM-05	OUR SERVICES	810 × 1180	1 : 1.46	GRAPHIC	66%	RIGHT INNER LEAF · LOWER	PROVISIONAL
BM-06	PHARMACY	810 × 1120	1 : 1.38	PH-06	64%	RIGHT OUTER LEAF · LOWER	PROVISIONAL
BM-07	ANTENATAL	810 × 1120	1 : 1.38	PH-07	64%	LEFT OUTER LEAF · UPPER	PROVISIONAL
BM-08	RECEPTION	810 × 1120	1 : 1.38	PH-01	64%	LEFT OUTER LEAF · LOWER	PROVISIONAL

DOOR SURVEY USED FOR THIS SET

LEAF PAIR	MOVEMENT	LEAF WIDTH	PANES	UPPER / LOWER
BM-08 / BM-07	OUTER LEAF, LEFT — FIXED	900	TWO PANES	RECEPTION OVER ANTENATAL
BM-01 / BM-04	INNER LEAF, LEFT — OPENING	900	TWO PANES	DENTAL OVER PHYSIOTHERAPY
BM-02 / BM-05	INNER LEAF, RIGHT — OPENING	900	TWO PANES	PAEDIATRICS OVER OUR SERVICES
BM-06 / BM-03	OUTER LEAF, RIGHT — FIXED	900	TWO PANES	PHARMACY OVER LABORATORY

Frames are timber, 60 mm face; two glazed panes per leaf separated by a 60 mm rail. The site is a shopfront unit under a rendered soffit — the film must be applied to the inside face if the glazing is single-pane and the leaf is exposed to rain.

Pane detail — crop logic and production notes

BM-01 DENTAL

810 × 1120 MM · 1 : 1.38 · SERVICES

ASSET PH-02 Andrea Piacquadio

Treatment in progress, faces small — crop keeps the clinician's hands and the chair light.

BM-02 PAEDIATRICS

810 × 1120 MM · 1 : 1.38 · CHILD HEALTH

ASSET PH-03 Pavel Danilyuk

Warm, calm, no distress. Child's face held in the upper third, clear of the safe line.

BM-03 LABORATORY

810 × 1120 MM · 1 : 1.38 · SERVICES

ASSET PH-05 Pavel Danilyuk

Bench and microscope read as capability rather than decoration.

BM-04 PHYSIOTHERAPY

810 × 1180 MM · 1 : 1.46 · REHABILITATION

ASSET PH-04 Funkcines Terapijos Centras

Hands-on treatment, modest framing. No exposed skin beyond the treated limb.

BM-05 OUR SERVICES

810 × 1180 MM · 1 : 1.46 · DEPARTMENT DIRECTORY

ASSET No photograph — type only

Directory pane: no photograph, so the type does the work at corridor distance.

BM-06 PHARMACY

810 × 1120 MM · 1 : 1.38 · DISPENSARY

ASSET PH-06 cottonbro studio

Shelving gives depth; faces stay sharp. Crop avoids the dark cabinet edge.

BM-07 ANTENATAL

810 × 1120 MM · 1 : 1.38 · ULTRASOUND & CARE

ASSET PH-07 MART PRODUCTION

Equipment only: no patient is depicted, which avoids implying a real person's scan.

BM-08 RECEPTION

810 × 1120 MM · 1 : 1.38 · GENERAL MEDICINE

ASSET PH-01 Cedric Fauntleroy

The welcome panel — used on the entrance leaf, where it is seen first.

Image source and licence log

Real, professionally shot stock photography as the base — no AI-generated scenes or people. Six of the originals then carry a colour retouch, declared below. Licence terms checked on Pexels' licence page, 28 October 2026. The images are licensed material, not portraits of BCM Medical Centre staff or patients, and must never be captioned as such.

ASSET	USED ON	PHOTOGRAPH	CREATOR / PROVIDER	LICENCE	PIXELS	CHECKED
PH-01	BM-08	RECEPTIONIST ASSISTING A PATIENT AT A MODERN RECEPTION DESK	CEDRIC FAUNTLEROY / PEXELS	PEXELS LICENCE	843 × 1,264	2026-10-28
PH-02	BM-01	FEMALE DENTIST PERFORMING TREATMENT IN A MODERN DENTAL CLINIC	ANDREA PIACQUADIO / PEXELS	PEXELS LICENCE	1,264 × 842	2026-10-28
PH-03	BM-02	PAEDIATRICIAN EXAMINING A CHILD WITH A STETHOSCOPE	PAVEL DANILYUK / PEXELS	PEXELS LICENCE	844 × 1,264	2026-10-28
PH-04	BM-04	PHYSIOTHERAPIST TREATING A PATIENT'S LEG IN A CLINIC	FUNKCINES TERAPIJOS CENTRAS / PEXELS	PEXELS LICENCE	843 × 1,264	2026-10-28
PH-05	BM-03	LABORATORY TECHNICIAN AT A TRINOCULAR MICROSCOPE	PAVEL DANILYUK / PEXELS	PEXELS LICENCE	1,264 × 844	2026-10-28
PH-06	BM-06	PHARMACISTS EXAMINING MEDICINE ON DISPENSARY SHELVING	COTTONBRO STUDIO / PEXELS	PEXELS LICENCE	1,264 × 842	2026-10-28
PH-07	BM-07	ULTRASOUND SCANNER AND EXAMINATION COUCH IN A CLINIC SCANNING ROOM	MART PRODUCTION / PEXELS	PEXELS LICENCE	6,123 × 4,082	2026-10-28
PH-08	— HELD IN RESERVE	DOCTOR CONSULTING A PATIENT ACROSS A DESK	COTTONBRO STUDIO / PEXELS	PEXELS LICENCE	4,189 × 6,284	2026-10-28

Alteration notice: 6 of these photographs were retouched with an AI image editor — the skin tone of the people was changed so the panels represent the community the clinic serves. Scenes, poses and clothing are the original photographs; only the people's colouring is synthetic. They remain stock models, never staff or patients, and are not captioned as such. The Pexels licence permits modification; this notice exists so the alteration is never passed off as an untouched photograph.

PH-04 is credited in transliteration: the display fonts used here carry no Lithuanian diacritics. The studio's exact Pexels handle is @funkcines-terapijos-centras.

WHAT THE LICENCE ALLOWS

Free commercial use, including printed signage; editing and cropping permitted; attribution not required (given here as good practice). This workflow — cropping, grading and compositing into a design — is expressly allowed.

Not allowed: selling the images unaltered; implying that the people depicted endorse BCM Medical Centre; using them as part of a trade mark. That last point matters here — the panels may not present a stock model as the face of a named service as if they were staff, so no names or titles appear beside any photograph.

Resolution audit at final print size

Measured from each original file against the final pane size, assuming full bleed across the pane — the crop is what counts, not the file's headline pixels. Floor 75 ppi, target 100 ppi: on perforated film the 2.3 mm hole pitch is the real limit, resolving about 11 holes per inch, so finer detail is lost in the mesh regardless.

PANEL	ASSET	PANE (MM)	TRIM PX @ 100 PPI	EFFECTIVE PPI	RESULT
BM-01	PH-02	810 × 1120	3188 × 4409	19	FAIL
BM-02	PH-03	810 × 1120	3188 × 4409	26	FAIL
BM-03	PH-05	810 × 1120	3188 × 4409	19	FAIL
BM-04	PH-04	810 × 1180	3188 × 4645	26	FAIL
BM-05	GRAPHIC	810 × 1180	VECTOR	—	PASS (VECTOR)
BM-06	PH-06	810 × 1120	3188 × 4409	19	FAIL
BM-07	PH-07	810 × 1120	3188 × 4409	93	PASS (MIN)
BM-08	PH-01	810 × 1120	3188 × 4409	26	FAIL

The files in assets/photos are web previews used to build these comps. Before output, download each original at full resolution from its Pexels page, relink, and re-check the crop — the focus point is stored per panel so the framing reproduces exactly.

BRAND ASSETS — STATUS

- Colours are sampled from the client's existing fascia sign and restated as clean print values: navy #16233F, cyan #2BA9E0, mist #E8EEF4.
- The cp monogram on these panels is a vector recreation drawn from the sign photograph. It is close, not official — replace it with the client's vector logo before release.
- The slogan and both telephone numbers are taken verbatim from the client's own sign.
- No opening hours, accreditations or service claims have been invented. The services list is the client's own board text, transcribed.
